# WHAT DOES IT MEAN!

In the Millenial Star of April 1855, we find an existe hearth and First Thing," from the we take following extracts. In taking of the persons who pursue objects entside the Church, the writer ays:

"A third will invest his means, and persuade all others whom he can to join him, in some lumbering law-suit, that is to repay (some time after Doomsday!) ten or a hundred per cent. for the money admnced. The gold must be paid down, and perhaps in a short time more added and the whole affair entered into and carried on with true business promptitude and energy-

We are not speaking of things altogether imaginative, things that have never occurred in the history of the Church. There have been Saints, Elders and Presidents even the live bave saithfully ministered to the Saints and forther world, and previously done a great and good work, who have taken a course as in wise as described blood, engaging without the connectot their superiors, in some wonderful underwards in parently a little aside from their obvious duties, yet which they fondly anticipated would be productive of surprising advantage to the work of God And with what results? The undertaking has cried out continually - Give, give; and means and time and strength have been drained from the Church, while the object sought has either vexationally eladed parsuit, or, if obtained, disappointed grievonsly the expectations and defeated the intentions of the pursuers.

The above article appears a few weeks after the Luwley Estate affair, to which we have previously referred, was ventilated, and when a certain editor, now in this city, was about starting or had then started on a sudden trip to New York His reasons for taking that trip and the occasion for the article from which we have made extracts are probably best known to himself; but it is not incompatible with the interests of the church, we would like to have the reasons made publica no

Chicago, Sept. 12.
The New York Times of Monday says the trade of the past week was especially active and at satisfictory prices for tic merchandiae, notwithstanding the recent heavy arrivals and considerable stock in bonded warehouses. Some of the seasonable styles of foregn drygoods are already becoming scarce, and it is believed that the Atlantic cable is being resected to for the purpose of stopping fall orders. The grain crops West are not only ample for the supply com. of the Atlantic seabord and Southern markets, but will afford a large surplus for export. The demand is of gradual increase, of which there are some signs by the last cable telegrams from Eug-

Philadelphis, Sept. 12. The Ledger of Monday says there is considerable activity id all the Atlantic seaboard markets, and prices are generally hardening of almost every product; it appears as equal to supply as to give confidence; it will grow firmer as the increased business of the season puts up the street rate of money. Exprices. The wool market is characterixed as spasmotic, though prices have not varied materially. The upward tendency, that has been so anxiously looked for, for several weeks, is not yet apparent, and, notwithstanding the large stock in market, there seems to be very little pressure to sell.

New York Sept 12. Flour, to-day, is in good demand and 10@15c higher; wheat, 2@3c higher; corn quiet; oats dull and lower; pork steady; whiskey inactive; stocks firmer; governments being steady. The advance in flour as reported by the cable in the Liverpool market of Sept. 11th. should have been 1@2s per barrel.
